

Frontend Test: Functional Design

S1 should contain a list of available car brands.

When **S1** is empty:

S2 should not contain any options.

When **S1** is filled in:

S2 should contain a list of available car models for the selected brand.

When **S1**, **S2** and **T** are empty:

B should be disabled.

When any of **S1**, **S2** and **T** are filled in:

B should be enabled.
